

The

Faversham

**Compact Solid Fuel
Cast Iron
Cabin Stove**

**Traditional Black
Lead Finish
weight approximately 30 kg
with 25 mm fire bricks
and 75 mm flue
Available with or without fiddle**

“The Faversham” solid fuel cast iron stove was designed specifically for narrow boats and sea going vessels. Its 25mm fire bricks, top loading and glass opening door features plus being able to be bolted down, make The Faversham a very attractive stove.

The stove is finished in matt black heat resistant paint, as is the fuel pipe, which is sold in straight lengths or can be fabricated when an off-set is required.

Available with or without brass fiddle.

Its ability to stay in for long period of time makes it a “must”. To achieve this, the best fuels we have found are smokeless, although the stove will burn ordinary household coal. Tests have shown that it is not suitable for charcoal.

Hinged
(Type B)

Chimneys

approx 18”
